

Student Job: Web Development (f/m/div)*

Job description

You enjoy programming and like to proactively contribute ideas? Within this student job you will have the opportunity to independently program concrete web applications. Furthermore, you appreciate different tasks and would like to gain practical experience in a global high-tech company during your semester? Then apply now - the assignment is possible at our location in Munich as well as in Regensburg.

In your new role you will:

- Develop and maintain **web applications**
- Develop **user interfaces**
- Programming in **C#**
- Implement **data base search functionality** (MySQL)
- Work with **IDE Microsoft Visual Studio 2017** and **web platform Microsoft IIS**

Profile

You are best equipped for this task, if you:

- Are currently studying **Computer Science, Electrical Engineering** or a related **technical subject** and are already at least in the **third semester**
- Have programming experience in **C# and Python**
- Possess knowledge in **REST API**
- Already gained solid experiences in **web development (JavaScript, HTML, CSS)**
- Ideally have first experiences in **SQL**
- Are **fluently speaking English** (German is a plus)

The vacancy is in Regensburg or Munich.

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript
- High school report

Additionally, the following requisites apply for student jobs:

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **backend segments** enable the development of comprehensive innovation across the entire value chain: starting with chip manufacturing, to wafer testing, preassembly, package development and development of new materials. The backend cluster combines the competencies for planning, productivity, innovation and quality, assembly and testing.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
